

PerioPal and Free Software Answering Schools' Needs for Software Technology

PerioPal voice driven software for periodontal exams is available at no cost to **all accredited dental education programs** in the United States, Canada, as well as programs worldwide offering students vital skills for today's job market. Students and faculty may also freely download an evaluation copy of PerioPal for additional training on home computers.

Goals:

- Ensure every student is given the opportunity to excel in today's job market.
- Maintain a strong commitment to providing students with flexible and powerful technological tools for learning and productivity.
- Lower the costs for periodontal charting software ownership.
- Maximize the schools' IT investment

Advantages:

PerioPal is completely free to dental programs. By taking advantage of PerioPal's School Donation Program, programs can save on short and long term software costs for multiple workstation use and apply these critical funds to other services. Dispensing with the continuous need to keep track of software licenses also saves additional time and money.

Here's How It Works:

1. Register your Program with PerioPal. The program can be installed on as many computers as needed.
2. PerioPal 'Exams' are issued in blocks of 100, 200, or 500 depending on programs' needs. Exam blocks can be re-ordered at any time by an authorized liaison.
3. Dental Program or students purchase the headset hardware.
4. Dental Program or students print the Training Materials.
5. Dental Program will network PerioPal if desired.
6. Instructors and students can download PerioPal at home for additional training.

Contact Us:

The PerioPal team is available to present, demonstrate, and answer questions concerning the viability of using PerioPal. We would like your institution to be able to make a smooth and successful transition to the educational potential of PerioPal. We provide complimentary web training for educators.
